Linked Heritage
Best Practice Network

Linked Heritage is a 30 month EU project, started on 1st of April 2011.
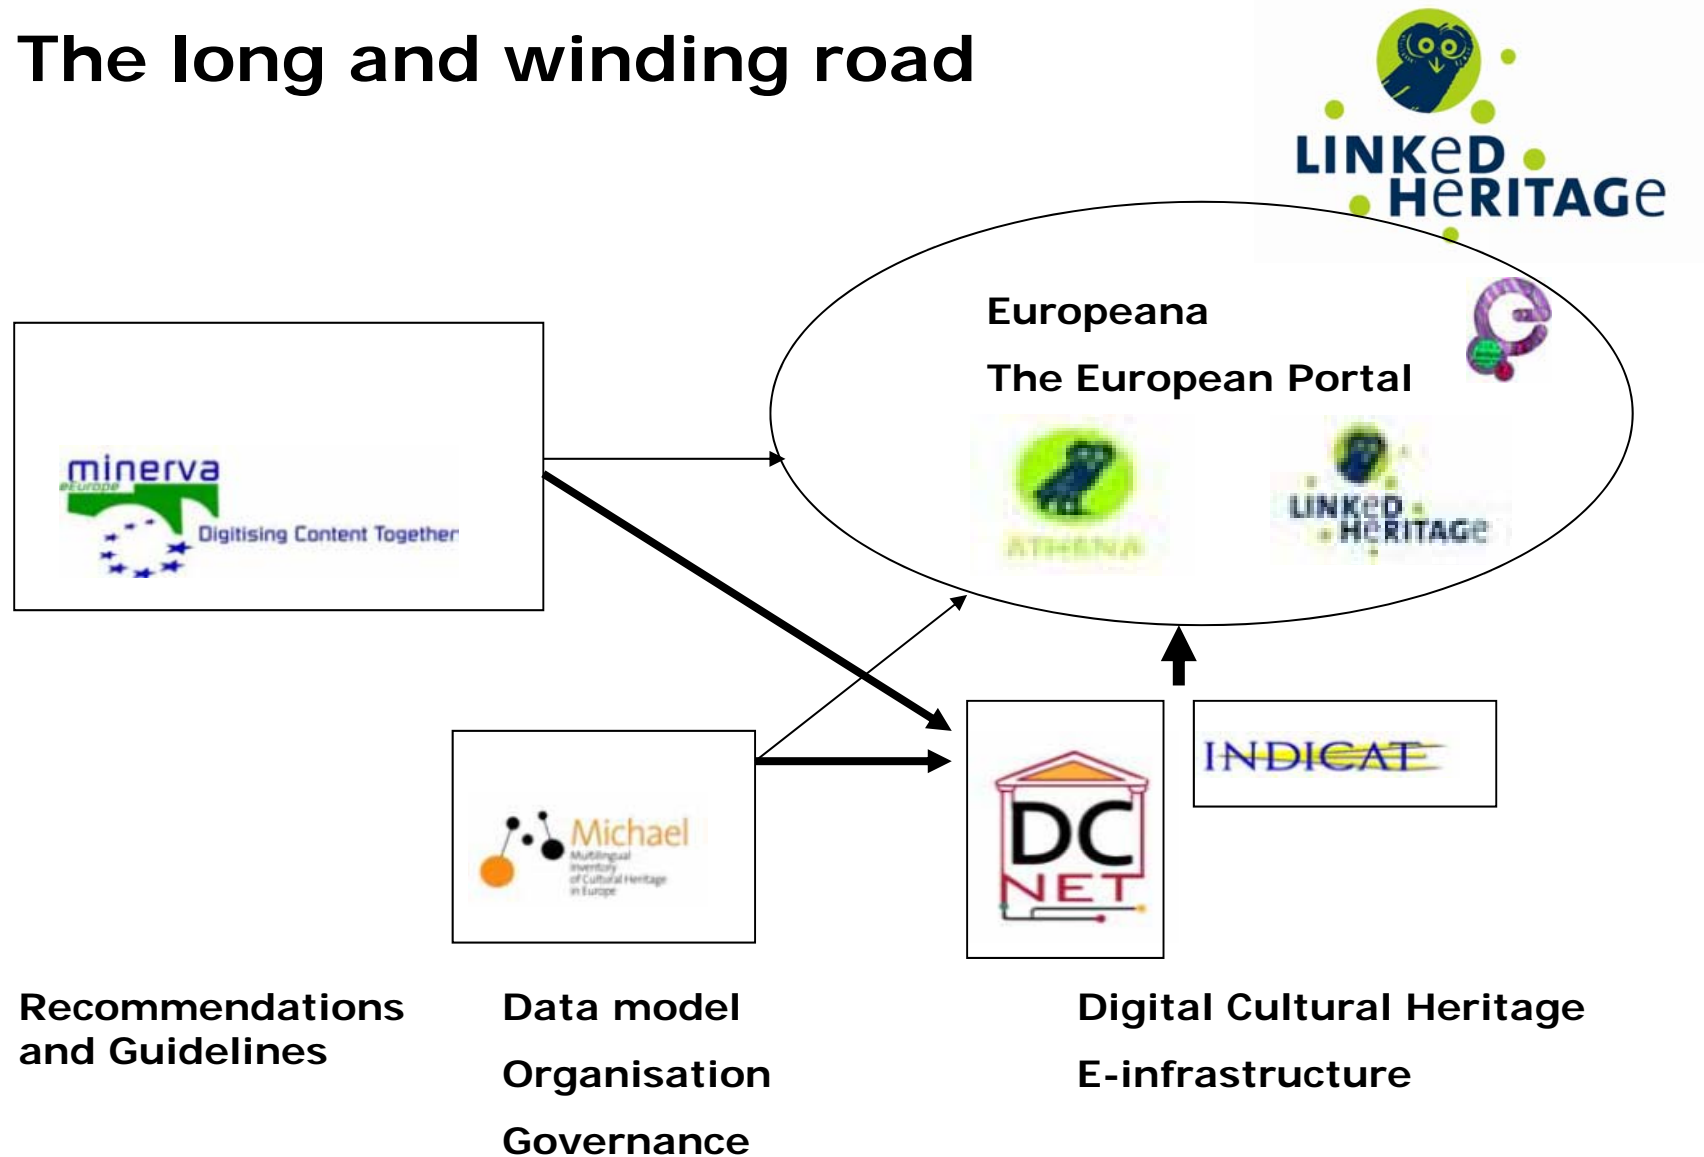

The main goals are

- to contribute large quantities of new content to Europeana, cross domain (from both the public and private sectors);

- to demonstrate enhancement of quality of both new and existing Euoropeana content, in terms of metadata richness, re-use potential and uniqueness;

- to demonstrate improved search, retrieval and use of Europeana content.

Linked Heritage
Best Practice Network

- The consortium includes representatives of all the key stakeholder groups from 20 EU countries, together with Israel and Russia.

- These include ministries and responsible government agencies, content providers and aggregators, leading research centres, publishers and SMEs.

The long and winding road

Governance

Digital Cultural Heritage

E-infrastructure

Main Objectives

1. First and most important focus: to provide 3 million new content to Europeana
2. Five key areas of development and innovation
   a) The use of linked data
   b) Persistent identifiers
   c) Metadata and standards (particularly for non-library sources)
   d) Multilingual and cross-domain combination of terminologies
   e) Engagement with the private sector

The End

Thank you for your attention!
